Overview

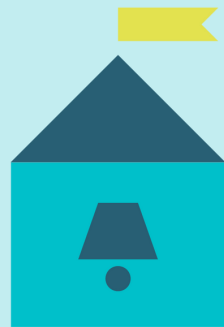

The Get a Job programme has been designed to help young people understand how to apply for a job and secure an interview.

Students get to learn about the types of questions asked by employers, including how to answer competency-based questions. They are encouraged to start thinking about what they need to do to prepare for the recruitment process.

Taking into consideration previous feedback results, this academic year 23/24 the programme was updated, giving more emphasis to the elaboration of personal profiles, cover letters and how to put together a CV, which gives the students the opportunity to have a full CV done at the end of the programme.
